

Don't let distractions steer you off course.

Distracted driving causes traffic accidents and fatalities every day in South Carolina and Georgia. By recognizing [**Distracted Driving Awareness Month**](#), we can raise awareness about this critical issue and help save the lives of our workers, family and friends. April is a great time to use this nationally recognized event to focus on distracted driving and bring attention to the dangers of using mobile devices, eating, drinking, or engaging in any other activity that diverts our attention while driving. This designated time gives us a platform and opportunity to remind drivers about the importance of staying focused and removing distractions behind the wheel, which can save lives and prevent devastating injuries.
